April 9, 2020

## *National Commander: Summer Activities' Status*

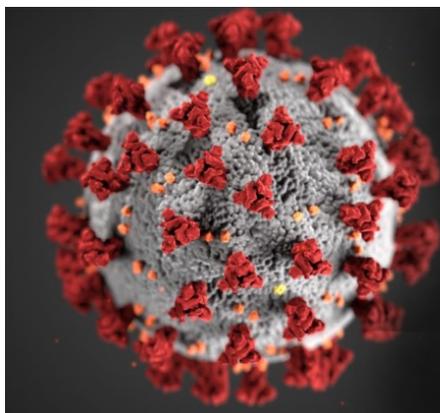

In his letter this week Maj. Gen. Mark Smith, CAP National Commander, addresses the coronavirus COVID-19 pandemic's impact on National Cadet Special Activities and nationally sponsored flight academies normally held during the summer.

“Some 50 days before each event a team of people, including the activity director, will evaluate several factors to determine a ‘proceed, cancel, or reschedule’ recommendation they will bring to me,” he notes. “This approach will allow us to make the decision and appropriate notifications 45 days prior to these large events.”

In addition, Smith cites the [grooming standards waiver](#) issued Wednesday during the pandemic while also making sure members know to keep checking the [Coronavirus Information Center](#) maintained on [GoCivilAirPatrol](#).
