- ~30% share of cluster market for third consecutive year
- Strong growth of Android-based infotainment
- Two new customer programs for SmartCore™
- Record display wins of \$845 million in lifetime sales

In 2020, we are anticipating another challenging year for the automotive industry, as we expect global vehicle production volumes to further decline by approximately 3%. However, we expect Visteon sales to continue to grow above market and increase year-over-year as we lead the digital cockpit transformation.

Sachin Lawande, President and CEO
